

Phönix

Place of Origin - Charité Subway System

Manufacturer – Legion

Length - 2.1 m

Height - 2.6 m

Crew - Unmanned

Main Armament - 2x High-Frequency Chain Blades

Secondary Armament Liquid Armor (Variant)

The Phönix is a High-Mobility Type Legion unit excelling in stealth and close-quarters combat. The Phönix was first discovered by the Eighty-Sixth Strike Package during the Charité Underground Labyrinth Operation. Presumably, it is one of the Legion units not originally developed by the Giadian Empire.
